§ 2 Payment undertaking and face value

The Borrower undertakes to redeem the loan and to pay interest in accordance with these terms and conditions.

The face value of each Bond is 5,000 kronor or whole multiples thereof.

§ 3 Redemption date and Redemption amount

The loan falls due for redemption on the Redemption date.

The loan will be redeemed at the Redemption amount and in accordance with the provisions of § 7.

§ 4 Interest rate and Amount of interest

The bonds pay real interest of 4 per cent per year from December 1, 1995 until and including the Redemption date.

Interest is paid at an Interest amount and in accordance with § 7 annually in arrears on each date for payment of Interest.

For calculation of Interest, each month is assumed to have 30 days and a year to have 360 days.

§ 5 Repurchase

Should the Borrower during the term of the loan find that the Official index has definitely ceased to be established or published, or that the rules for establishing or publishing such an index, cause the Official index to be obviously misleading to the detriment of the Creditors in relation to the actual changes in consumer prices in Sweden, the Creditors are entitled within one month thereafter (Repurchase period) to request that the Borrower repurchases the Bonds.

During the Repurchase period the Borrower shall regularly offer to repurchase the Bonds at a price established by the Borrower on the basis of prices on Swedish bond market (Market-related price). The Market-related price offered includes accrued Interest. Should a Creditor call for repurchase, the Creditor shall immediately indicate whether or not he accepts the offered price. If he does not accept this price, there will be no repurchase. The Creditor is not thereby prevented from once again calling for repurchase later during the Repurchase period.

Information to the effect that the Borrower has decided to offer to repurchase the loan and on the Repurchase period shall be sent to those who at the time of the decision are listed as Creditors and in the manner provided in § 9 second sentence.

§ 6 Registration of the Bonds

As the Bonds will be registered on a VP account on behalf of the Creditor no physical securities will be issued. Any requests for a particular registration procedure in respect of the Bond shall be addressed to an Account operator.

Any person or institution who has acquired the right to receive payment under the terms and conditions of the Bond contractually, by pledging, the provisions of the Children and Parents Code, the conditions in a will or a donation, or by any other means shall have their right to payment registered.

§ 7 Redemption of loan and payment of interest

Interest shall be paid to those persons or institutions who are Creditors on the fifth Banking day before each Date for payment of interest, or such later date before the interest payment date as may be announced (Date of record).

The loan shall be redeemed:

(a) if the Creditor's VP account is designed by VPC as an "account with contract" to those who are Creditors on the Redemption Date (Date of record); or

(b) in other cases to those who are Creditors on the fifth banking day before the Redemption date or such later date as may be announced (Date of record).

If the Creditor has had registered through an Account operator that a Redemption amount or Interest amount shall be credited to a specified bank account, the amount will be

credited to the account through the agency of VPC on the Redemption date in question. Otherwise, VPC will send over the amount on the last-mentioned day in the form of a bank giro payment advice to the Creditor at the address given on their behalf on the relevant Date of record with VPC. Should the due Redemption date fall on a day which is not a Banking day, the amount will be deposited or sent on the next Banking day. However, interest will only be paid until and including the Redemption date.

Should VPC on account of delay on the part of the Borrower or on account of other hindrance not be able to pay the amount in accordance with what is stated above, it will be paid by VPC as soon as the hindrance has been removed to those who were Creditors on the Date of record.

If it turns out that a person or institution who has been credited with an amount in the manner stated above is not entitled to receive it, the Borrower and VPC shall none the less be deemed to have fulfilled their respective obligations. However, this does not apply if the Borrower or VPC respectively was aware that the amount had come into wrong hands or failed to take the care and attention which should reasonably be observed in the circumstances.

§ 8 Statute barring

The right to receive payment of a Redemption amount in respect of a Bond expires 10 years after the Redemption date. The right to receive Interest expires 10 years after the respective Date for payment of interest. The funds which are set aside for such payments will accrue to the Borrower at the end of the period in question.

§ 9 Notices

Notices concerning the loan shall, to the extent it is not otherwise stipulated in these loan conditions, be sent to the Creditor. Information shall also a) be communicated via the Pml system or via other equivalent information system and b) be inserted in Post- och Inrikes Tidningar and in at least one newspaper published daily in Stockholm.

§ 10 Alteration in terms and conditions

The Borrower reserves the right to change these terms and conditions with regard to the method of payment of the Redemption amount and the Interest amount. The Borrower also reserves the right to reduce the time interval between the Date of record and the due date, and to issue Bonds with other face values than 5,000 kronor or whole multiples thereof. Notices concerning such changes shall be communicated in accordance with the provisions of § 9 above, and sent at least 30 days before the change shall come into effect.

§ 11 Listing

The loan is listed on the Stockholm Stock Exchange (including the SOX list) and the PMX Exchange.

§ 12 Registration in names of nominees

In the case of a Bond which is registered in the name of a nominee in accordance with Chapter 8 in the Share Accounts Act, the nominee shall be regarded as the Creditor for the purpose of these terms and conditions.

§ 13 Access to Register of record

The Borrower refrains from the right to have access to the Register of record.

§ 14 Limitation of liability

In the case of measures which are incumbent on the Borrower and VPC respectively — in the case of VPC taking into account the provisions of the Share Accounts Act — they cannot be made liable for damage or loss which is due to Swedish or foreign legislation, measures by Swedish or foreign public authorities, acts of war, strikes, lock-outs, boycotts, blockades or other similar circumstances. The reservation regarding strikes, lock-outs, boycotts and blockades also applies if the Borrower or VPC themselves are subject to or take such action.

Any loss which is incurred in other cases shall not be indemnified by the Borrower or VPC if they have taken normal care and attention. Should the Borrower or VPC be prevented by such circumstances as are stated in the first paragraph from taking action in accordance with these terms and conditions, the action may be postponed until the hindrance has been removed.

Should the Borrower or VPC respectively be prevented on account of such circumstances as are stated in the first paragraph from making payment on the due date, interest shall accrue on the amount due from that day until and including the day payment is made at a rate of interest which corresponds to STIBOR, the interest rate being established weekly on the first Banking day in the respective calendar week, beginning on the first Banking day in the calendar week in which the due date occurs. If STIBOR is not listed on the first Banking day in a calendar week, the interest rate shall instead correspond to another interest rate established by the Borrower on the basis of the market rate in the interbank trade for loans having a maturity of one week. Interest is calculated on the basis of the actual number of days, a year being assumed to have 360 days (365/360).
